Las siguientes son declaraciones autorizadas por el abogado del Gobernador, Lcdo. Tomas Green

Washington, D.C. - At approximately 6:30 this morning I was called in Washington, D.C. by the US Attorney's office in San Juan and advised that the Governor and many others associated with the Governor's campaigns had been indicted. I have not yet had an opportunity to review the indictment, but it is particularly disconcerting that this indictment comes after three years of investigation two grand juries and in the middle of an election year, in fact, only months before the election. This is an unprecedented and undeserved intrusion by the federal government into the affairs and electoral process in the Commonwealth. As soon as I have an opportunity to review the charges I will be in position to address them. In the meantime I assure you that these charges against the Governor will be vigorously contested and exposed as senseless.
